

The **Power** Behind the **Part**.

Company Overview

# IC-Fluid Power:

## Connecting you to world-class quality hydraulic components

Serving distributors and system integrators, IC-Fluid Power is your North American bridge to German and European quality components. We have well-established relationships that allow us to simplify your overseas sourcing needs while minimizing issues such as:

- Searching for the right part
- Shipping & customs
- Language & cultural barriers

IC-Fluid Power specializes in high-quality, mission-critical components that pay for themselves with reduced downtime and maintenance/replacement costs. Our resources are not limited to Europe. We use our experience, knowledge, and know-how to help you find the best solution to meet both your performance and budget needs no matter where the source may be located.

## 4 Reasons to work with IC-Fluid Power

- 1 Reliable hydraulic component supply**

Partnering with IC-Fluid Power to globally source your hydraulic component needs provides you with a reliable supply of hydraulic components and greatly reduces the cost of bringing them in from overseas yourself. IC-Fluid Power anticipates and rapidly reacts to changes, while simultaneously investing in relationships with manufacturers that offer the best value or the right cost to quality ratio.
- 2 Risk mitigation**

Since 1989, IC-Fluid Power has developed manufacturer relationships and build an infrastructure and process for bringing high-quality German and European hydraulic components to North America. By partnering with us, you are able to mitigate your risk and focus on what you do best.
- 3 Improved working capital**

By relying on IC-Fluid Power, you can cut down on the cost and time it would take you to source the world on your own; increasing the capital your company has to work with from day to day. Whether you are in charge of purchasing, management, maintenance, or engineering; German and European hydraulic components can bring a whole new market to your business.
- 4 Economies of scale**

IC-Fluid Power works with numerous North American businesses and is able to leverage our purchasing power and pass the savings on to our clients. We are able to anticipate and quickly react to changes in the market and strengthen relationships with German and European manufacturers to improve our client's cost/benefit ratio.

**Anyone can sell you a part.** At IC-Fluid Power, we have the engineering background to identify the exact hydraulic components you need and the global connections to make sourcing the components as simple as a phone call. Organizations looking to expand their current sourcing options trust IC-Fluid's services that include: engineering and hydraulic component design, outsourcing partner selection and transition, strategic implementation and support, and logistics management.

## Put IC-Fluid Power to work for you.

**Pressure Intensifiers**  
In-Line Reciprocating Type

**Pressure Intensifiers**  
Single-Stroke Type

**Regeneration Valves**  
Speed Valve

**Hydraulic Cylinders**  
Test Cylinders

**Hydraulic Cylinders**  
Custom

**Rotary Actuators**  
Standard

**Rotary Actuators**  
Specialty-Custom

**Rotary Actuators**  
Linear-Rotary

**Valve Actuators**  
Double-Acting

**Valve Actuators**  
Spring Return

**Valve Actuators**  
Self-Contained

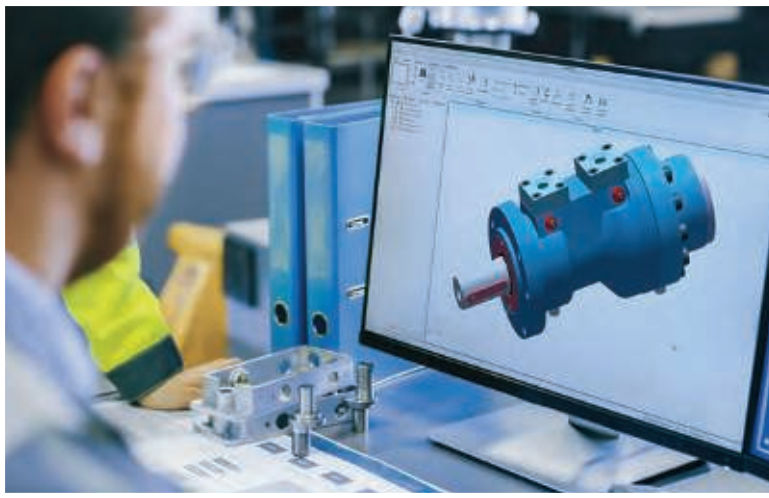

**Rotary Unions**  
Simple to Complex

**Rotary Unions**  
Electrical Slip Ring

**Rotary Unions**  
Custom

## In-House Capabilities Include:

- Deep product knowledge
- Factory authorized and trained repair personnel
- Highly customized hydraulic systems
- Product demonstrations
- Project management
- Replacement parts
- Technical expertise and support

**Volume Dividers**

**Flow Dividers**

Gear & Radial  
Piston Types

**Hydraulic Motors**

Radial Piston Type  
Vane Type

**Planetary Gear Box**

**Heat Exchangers**

Oil-Water

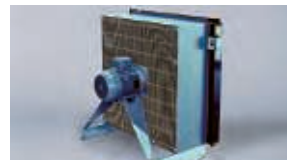

**Heat Exchangers**

Oil-Water Failsafe

**Heat Exchangers**

Oil-Water Plate Type

**Heat Exchangers**

Oil-Air

**Heat Exchangers**

Oil-Air for Mobile  
Applications

**Thermoplastic Hoses**

Low Pressure

**Thermoplastic Hoses**

Medium to Very  
High Pressure

**High Pressure Filters**

Up to 10,000 psi

**Test Points**

**Test Hoses**

## Industry specific hydraulic experience that includes:

- Aerospace
- Agriculture
- Construction
- Energy
- Entertainment
- Food & beverage
- Forestry & lumber
- Machine tools
- Marine & offshore
- Material handling
- Metals
- Military
- Mining
- Off-highway
- Oil & gas
- Packaging
- Plastics & injection molding
- Transportation
- Waste management

### Serv-Clips

Hot Tap Test &  
Sensor Connection

### Die Splitter & Turnover Machines

### Stainless Steel Fittings

### Butterfly Valves

Suction Line Only

### Compensators

Suction Line Only

### 10,000 PSI Valves

Hand & Solenoid Operated

### 10,000 PSI Valves

In-Line Check

### Rod Locks

### Impact Dampers

### Parallel Lifting Devices

## And More...
